Superintendent's Highlights

Culminating two years of work, the district passed a 10 year levy which will enable the district to modernize our facility. By improving safety, adding capacity, and updating technology, the schools will be in a position to continue our tradition of excellence as we enter the 21st century.

Genesee has maintained small class size allowing for individual attention. Further individualization has been possible through implementation of comprehensive computer-assisted software K-6.

The district maintains a web page to enhance communication which features district policies, student handbooks, and related information.

Progress Towards Meeting District Goals

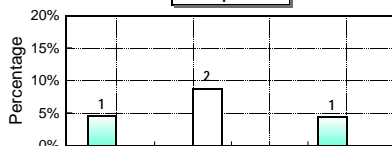

1997-98 Goals	Progress
Increase emphasis on early literacy	Received 2 year Albertson's grant enabling the district to fund a reading teacher, implement parent education and a summer reading program.
Bring facility up to current safety, ADA and building codes.	We passed a 10 year \$322,000 levy which will allow us to complete a renovation of the oldest portions of the school.
Modernize teacher evaluation system	A 2 year committee analyzed and rewrote the supervision process and forms and developed an innovative alternative professional growth evaluation process.
Train all teachers in the use of current technology	The district joined with other Latah county schools forming a consortium to apply for grants and support extensive teacher training.
